## ABSENT FRIENDS FOR 2021

A number of our usual stands and displays are unable to make it this year, mainly due to Covid related issues, including ill-health and the need to find a steady income during a time where there has been no guarantee of any shows these include:

**The Adam's Axemen**

**The Tree Climbers**

**The Little Landies**

**And other traders and craftsmen**

We wish them well and cannot wait to welcome them back in 2022!

For 2021 we have invited a number of new stands to the show and we hope you like them as well as a few more features including:

**The Dog & Duck Show, Medieval Free Company, Bunker Bushcraft & many more independant traders.**

# WELCOME BACK TO THE OAK FAIR!

We are so excited to welcome both exhibitors and guests back to The Oak Fair after our year hiatus!

2019 now seems like a distant memory but we hope this year lives up to that very hot weekend.

Sadly a number of our exhibitors and displays cannot be with us this year but we look forward to welcoming them back in 2022 and unfortunately some will never be able to join us again.

We do however have a number of new exciting stands, displays and traders we hope you will enjoy.

While there are no legal restrictions on the show we do ask that everyone is as respectful as possible in social distancing,

hand sanitising and so on throughout the fair to ensure everyone has a safe and enjoyable time.

For those visiting for the first time, we encourage you to check the timetables & activities in our programme so you don't miss a thing, and have a chance to explore the whole fair and enjoy everything there is to offer.

All in all, thank you for coming, and you'll all be back to see us in 2022.

From all the Oak Fair team we hope you enjoy your day.

**Jack Langmead**

## T H ROBINSON 1887 DOUBLE BLADE RECIPROCATING PLANKING SAW

Thought to have been installed new in 1887 to The Greystone Estate, near Lake Windermere where it was driven by a 16-foot overshot waterwheel via various overhead line shafts. One of its main uses was cutting planks for coffin-making as at the time it was very efficient due to being able to cut two planks simultaneously. This reciprocating saw was taken out of use in the 1950s when it was replaced with a circular rack bench along side it. The saw was dismantled and transported back to Dorset. Martin Richards the owner re-assembled it and mounted it on to a chassis to enable it to be towed and exhibited at various shows over the past 14 years.
